Statement of Conformity

This is to certify that the SDC Grey Scale for Staining has been produced and independently tested to conform to the specifications of ISO 105 A03: 1993, and is approved by M&S and NEXT for use in their Test Methods.

Independent Testing

Where applicable, to ensure that all results are accurate, unbiased and impartial, testing is carried out in **Independent UKAS Accredited Test Laboratories** and sampling is conducted using ISO guidelines as a minimum requirement.

Test Procedures

The SDC Grey Scale are tested before, during and after manufacture to ensure they are within the CIElab tolerances specified in the ISO standard. The tolerances are as follows:

1-2	Not Less than 85	24.0	±1.5	PASS
1	Not Less than 85	34.1	±2.0	PASS

Packaging

Please ensure that the product is retained in its original SDCE packaging. All product packaging is tested to ensure there are no contaminants or BHT content that could cause damage to the product. When the Grey Scale is not in use it should be returned to its plastic sleeve to ensure there is no risk of fading due to unnecessary exposure to light
